FROM OUR ENVIRONMENT GROUP:

ECO TIPS:

Plastic Free July focuses on microplastic pollution. Fibres from synthetic clothes (eg polyester, nylon and acrylic) shed tiny fibres during washing and drying. These enter the sewage systems and are hard to filter out. Use a micro-fibre bag or ball to catch the fibres. www.Plasticfreejuly.org

A Guppy Friend Washing bag is 87% effective in catching microfibres and costs £25

A Cara Ball costs £30 and is 26% effective

A Microplastic Filtration device which fits onto the side of a washing machine is 90% effective and costs £52 from www.PlanetCare.org

Bosch Microplastic Filtration device – filters up to 97% of microplastics and costs £199.

Compatible with any washer or washer dryer [WMZMPF10 Microplastic filter | BOSCH GB](https://www.bosch-home.com/en-gb/laundry-care/microplastic-filter)
